

Crèche and Scramblers Nativity Picture Hunt

The route for both the Scavenger Hunt and Nativity Picture Hunt is the same. If you are doing the Scavenger Hunt with older children alongside the Nativity Picture Hunt you need only follow the Scavenger Hunt directions. This route is for families only doing the Nativity Picture Hunt.

Start on the right hand side of Pittville Pump Room, looking down towards the lake. Take a look at the information board for your 1st picture.

Continue past the band stand on your left and look out for your 2nd nativity picture on the benches.

Turn right into the play area and walk to the animal cages. Look at the animal information boards. There are 3 nativity pictures to find here.

Turn left and continue down through the playground to the kiosk where you will find your 6th picture.

Keeping the lake on your left and the toilets to your right, follow the pathway over the bridge. Take a look at the notice board for your 7th picture.

Turn right and go down through the tunnel under the road. Once back out in the park, take the right fork, following signs over the stream and towards the boat house café. Look for your 8th picture near the duck food sign.

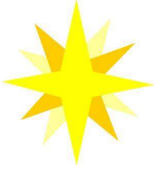

Follow the path straight on (not over the bridge) with the lake still on your left. Can you find your 9th picture on one of the jetties?

Continue along the pathway. Just before you turn left over the bridge towards the mini playground look at the blue signposts marked town centre and railway station. Can you see your 10th picture here?

Bear left, keeping the lake on your left. Keep walking past the basketball court and the little playground keeping left to stay in the park. Keep going there's still a way to go before the next picture! Take a left fork at the bins, staying close to the water. Keep an eye on the benches for your 11th picture.

Follow the pathway back through the tunnel, retracing your steps to the kiosk by the main playground. This time, turn right, with the green on your left and the lake on your right. Look at the information about landscaping plans for Pittville Park. Can you see the 12th nativity picture here?

Before you follow the pathway between the green and the lake (towards the flats), take a rest under the big oak tree by the lake. Look for where you can buy wildfowl feed for the 13th picture.

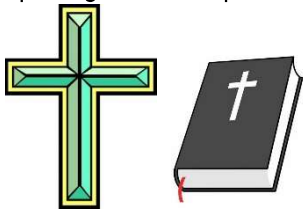

Keep walking along the pathway. Look at the history board about the lifeboat for the 14th nativity picture.

Turn left to walk back up the green towards the Pump Room. Keep an eye on the base of the trees for your 15th and 16th pictures.

Arrive back at the Pump Room. Look at for the 17th and 18th pictures to finish the nativity story near the Heritage Café opening hours and portaloos.

Well done for completing the Nativity Picture Hunt!
